presence

Tailor-made  
lubricants

## ELASKON PRODUCTS FOR WIRE ROPES

---

Elaskon lubricants provide the wires used in the rope an excellent corrosion protection. They improve quality, reduce friction, have lubricating and adhesive properties, are resistant to temperatures and extend the life of both rope and strand. Metallic abrasion in the strand and rope is significantly reduced thanks to excellent lubricating properties.

### **WR** Wire ropes production and maintenance

Whether it is for elevators, mines, cable cars or crane systems (mobile, tower or port), Elaskon lubricants provide an application both in the production and maintenance of wire ropes and strands.

We can help our Customers finding the most suitable product according to the specific process and material.

Analysis of the products in use.

After-sales support and training to assist our Customer managing the products.
